

# OpenRouter Provider Revenue — 2026-05-12

UTC: 2026-05-12T00:00:00 to 2026-05-12T23:59:59; baseline: prior 2026-05-11

Snapshots	Providers	Weekly Tokens	Weekly Revenue	Annualized
<b>4</b>	<b>58</b>	<b>23.32T</b>	<b>\$25.30M</b>	<b>\$1.32B</b>

## Revenue trend — top 8 providers (2026-04-22 → 2026-05-12)

Weekly revenue (rolling 7d) across 9 snapshots. X-axis is proportional to real time — visible horizontal gaps reveal collection outages.

## Top 25 Providers (vs baseline)

#	Provider	Rev/wk	Share%	Δshare pp	Prev#	Top model	Top rev
1	Amazon Bedrock	\$11.94M	47.20	+11.46	1	Anthropic: Claude Opus 4.7	\$5.34M
2	Google	\$3.99M	15.78	-0.84	2	Anthropic: Claude Sonnet 4.6	\$1.17M

Baidu	\$27.9K	\$60.7K	-\$32.8K	-54.0%	29	21	↓8
Inceptron	\$63.9K	\$31.7K	+\$32.3K	+101.8%	23	23	—

Sorted by absolute USD change. Top 20 movers shown. Rank move: ↑ = climbed, ↓ = dropped. Lookback target was 7 days; closest non-empty snapshot is 15d back.

## Biggest Share Gainers

Provider	$\Delta$ share pp	Share now	Rank move	Revenue
Amazon Bedrock	+11.46	47.20%	1→1	\$11.94M
Azure	+1.39	3.04%	6→5	\$769.3K
SiliconFlow	+0.30	1.12%	12→11	\$284.1K
Moonshot AI	+0.26	4.59%	5→4	\$1.16M
Novita	+0.24	1.69%	7→6	\$427.3K

## Biggest Share Losers

Provider	$\Delta$ share pp	Share now	Rank move	Revenue
Anthropic	-10.78	1.55%	4→7	\$392.5K
OpenAI	-1.40	12.83%	3→3	\$3.25M
Google	-0.84	15.78%	2→2	\$3.99M
Parasail	-0.21	0.49%	17→18	\$124.2K
Fireworks	-0.16	0.30%	19→21	\$76.0K

Methodology: hourly snapshots of OpenRouter </api/frontend/stats/endpoint> provide per-(model, provider) request-count distribution. Global weekly tokens per model (from OpenRouter's public model catalog) are allocated proportionally to each provider. Revenue = tokens × (0.9·input\_price·0.5 + 0.1·output\_price). Shares are of total allocated revenue across the tracked universe.
